# WHOLESALE TRADE LIST

... OF ...

## Kelsey's Hardy American Plants

... AND ...

## Carolina Mountain Flowers

### HARLAN P. KELSEY,

HIGHLANDS NURSERY,

Kawana (Mitchell Co.), North Carolina, U. S. A.

TELEGRAPH ADDRESS:

"Kawana, via Cranberry, N. C."

REGISTERED CABLE ADDRESS:

"Kelsey, Cranberry."

# PLEASE OBSERVE

**Packing** charged at cost only.

**Delivery** at our depot, **Cranberry, N. C.**, free.

**DISCOUNTS.** Special for cash with order, 5 per cent. On orders of \$25, 5 per cent.; \$50, 7 per cent.; \$100, 10 per cent.; \$200, 12 per cent.; \$500, 15 per cent. Five plants of a kind at 10 rates, 50 at 100 rates, 500 at 1,000 rates.

**ASHEVILLE, N. C.**, is our **Money Order** office.

**FOREIGN REMITTANCES.** Send by **International Postal Money Order** drawn on **Asheville, N. C.**, by **New York Exchange** or by **Cheque Bank Check**.

**CLAIMS** made immediately on receipt of goods will meet with prompt recognition, and be adjusted if our error. All **shipments** travel at **consignee's risk**.

**"COLLECTED PLANTS"** are those carefully lifted from open woods, and usually trimmed before shipping. Our true line is in furnishing strong **nursery-grown** stock, but to meet a demand for very **cheap stock**, we have carefully prepared a schedule, and a glance shows the price of **collected** or **nursery-grown**. **Please order accordingly.**

**WE SHIP** usually from October 1 to December 1, and from March 1 to May 1; often all through the winter if mild. (**Please order early.**)

**OUR SHIPMENTS** extend over the world, and our **packing** is, we think, as nearly perfect as is possible. **Large frost-proof Cellar, Packing House and Sheds** facilitate prompt shipments.

---

## How to Grow American Wild Plants and Flowers.

As a rule, give them the same treatment you would bestow on a choice Rose bush or other garden plant—that is, plant in a rich, loamy soil and give clean cultivation, at least until well established. Do not expect a clump of Rhododendrons or Azaleas, or a border of hardy herbaceous flowers, to flourish and blossom stuck in a sun-burnt clay bank, and left to the tender mercies of nature and live stock, any more than you would hope for a fine display from Roses, Fuchsias or Gladiolus under similar conditions. At the same time, the majority of our wild plants do not need any special treatment, and while they richly repay all extra attention and care given them, nurserymen and planters generally find that they will flourish planted along with their general collection of ornamental stock and receiving the same care. Some of the Ericaceæ, however, including the Rhododendrons, Azaleas and Kalmias, require for their best development a rich, loose, peaty soil, well drained, but affording abundant moisture, either by shade, mulching or other means, thus keeping the soil *cool*.

In planting, excavate 2 feet of the soil and fill in with surface loam and decayed leaf mold, sods or other decayed vegetable matter, adding a tenth or more of sharp sand. A liberal proportion of well-rotted stable manure is most excellent in preparing the soil.

## Our Stock is Hardy.

The Highlands Nursery is elevated 3,800 feet above the sea level, on the crest of the Carolina Mountains—this extreme altitude insuring long, cool summers, and, as a rule, moderate winters. However, we have enough severe cold to fully harden up our stock, and buyers will find everything as hardy as that grown in middle or northern New York. Last winter all our plants stood without injury *20 degrees below zero*, and 8 to 10 below is not at all unusual.

*Copyrighted 1893, by Harlan P. Kelsey.*
